KENNETH BRANAGH, ACTOR & FILM DIRECTOR

Delivered over 14 keynote speaking engagements for audiences across the NHS Midlands and East Region. Michael McGrath provokes, stimulates and inspires action. Drawing on his profound life lessons, Michael addresses themes of leadership, resilience and change to influence and motivate your staff.

Michael is the first disabled person in the world to have successfully led expeditions to both the North and South Poles and he was a 2012 Paralympic Torchbearer. Along with his wife and business partner Sue, their unique patient/carer perspective continues to engage the hearts and minds of healthcare professionals and leaders. A catalyst for real and lasting change, inordinate care is taken to interpret often complex business briefs that time and again exceed desired client outcomes.
